

Beyond Hair Plugs And Wigs

Here's a tip from our RUMH ENOUGH guys – ditch that baseball cap and get to the root of hair problems before it's too late.

Statistics show that up to 50% of men experience hair problems to a certain degree, the most common ones being hair loss, thinning hair and dandruff. This means that one out of every two guys will be affected. Make sure you are not that guy.

The good news is, hair problems can be prevented with the right products. Foltène Laboratories has treatment ranges that address two of the most common hair problems for men today – dandruff and hair loss. Foltène's Anti-Dandruff Treatment treats chronic dandruff and soothes inflamed scalp conditions commonly experienced by dandruff sufferers. Its hair loss shampoo has also been specially developed to help hair regain its natural balance, as well as control common symptoms of hair loss, such as oily and itchy scalp.

With years of expertise, Foltène is the only over-the-counter brand that is backed by over 40 international clinical trials. In fact, Foltène's Hair Loss Treatment Range and Anti-Dandruff Treatment have been proven to produce noticeable results with no side effects - and all within just one month.

Let's Talk About Hair

RUMHEnough contestants, Stanley Poh and Chin Hock share their experience of Foltène with us.

MH: What is your biggest hair concern?

Stanley: Thinning hair. My biggest concern is not to lose any more hair!

Chin Hock: Oily scalp.

MH: Stanley, clinical trials have proven that the Foltène Formula is capable of producing noticeable results after just one month of usage. Did you notice any change after using the Foltène hairloss treatment for one month?

Stanley: I guess seeing is believing. I did notice that my hair has become strengthened. It used to be very fine and thin. Towards the end of the one month, my hair felt fuller and definitely stronger.

MH: Chin Hock, did you know that having an oily scalp can cause dandruff too?

Chin Hock: Yes, that is why I need to get rid of this problem before dandruff develops.

MH: The Foltène Anti-Dandruff treatment is specially formulated for all types of dandruff conditions; dry or greasy. Did it improve the condition of your oily scalp?

Chin Hock: It did indeed. My scalp feels very clean and refreshed after every wash.

MH: Are the products difficult or time consuming to use?

Stanley: Definitely not. It is very convenient and easy to use. The treatment comes in individual bottles and there is no need to fret over how much to apply. Just a bottle a day is all I need.

Chin Hock: Not at all. I use the shampoo as I would my usual shampoo and it takes less than a couple of minutes to apply the serum. And with the results it produces, it is definitely worth that little bit of effort.

MH: Would you recommend it to friends with dandruff or hair loss problems? Why?

Stanley: I will. Since I can testify that the product works for me, I'll definitely recommend to friends.

Chin Hock: I like the results that I see, so I'll recommend it to whoever has hair or scalp problems.
